

## De-Installation

- Delete the preferences of the application with **Processing > Reset Connector**.
- Delete the PDFX-ready Connector application by **moving into the trash**.
- Remove the icon from the menu bar on the **Macintosh** with **System Preferences > Users & Groups > Login Items**:

Select **Enfocus Printer Processor** and delete with **-**.  
During the next Restart of the computer the icon will be removed.

- Remove the icons from the **Windows** task bar with a **right mouse click** in task bar and **Properties > Customize... > Select which icons appear on the taskbar** and set **Enfocus Printer Processor** and **Enfocus Connect Connector** to **Off**.

PDFX-ready Online Tools are generously supported by
